

Creative technologist with 6+ years of experience bridging digital media production and user-centered design. Currently serving as an **AI Training Data Specialist** at Outlier AI, creating and refining image datasets for computer vision models using CVAT annotation tools, GIMP preprocessing, and semantic segmentation workflows. Deep expertise in visual design, UX research, and front-end development — uniquely positioned to deliver AI-ready visual content at the intersection of design and machine learning.

PROFESSIONAL EXPERIENCE	TECHNICAL SKILLS
AI Training Data Specialist (Contract) 2024 – Present Outlier AI Remote - Created and refined digital image datasets for computer vision model training using CVAT annotation tools - Performed bounding-box annotation, semantic segmentation, and quality assurance on 1000+ image assets - Utilized GIMP for image preprocessing, cleanup, and format standardization prior to annotation - Maintained 98%+ accuracy rate on annotation validation reviews - Collaborated with ML engineers to refine annotation guidelines and improve dataset consistency Key Achievement: Contributed to training datasets for cutting-edge AI research projects, directly impacting model performance in object detection and classification tasks.	Image & Data Tools GIMP, CVAT, Photoshop, Illustrator, Inkscape, Krita — Image annotation, bounding-box & segmentation, dataset preprocessing, format standardization Design & Prototyping Figma, Adobe XD, Canva, Procreate, InDesign — Wireframing, high-fidelity prototyping, design systems, visual identity Development & CMS HTML5, CSS3, JavaScript, WordPress, Hostinger — Responsive layouts, accessibility (WCAG AA), CMS customization Process & Collaboration Agile, Scrum, Design Sprints, Jira, GitHub — Cross-functional collaboration, design-to-dev handoff, version control
Senior UX/UI Product Designer 2023 – Present TabSphere LTD (Own Start Up) UK (Remote) - Designed interactive quizzes, animated infographics, and video modules — enhancing learner engagement by 70% - Conducted WCAG AA accessibility audits, remediating 50+ pages for 85% assistive-needs coverage - Delivered digital product and brand identity for BestPlan Logistics platform	CERTIFICATIONS - Google UX Design Certificate - CompTIA Security+ - CompTIA Network+ - NextGen Fintech Acceleration Awards, Starlife
UX/UI Product Designer 2016 – 2022 Forestry Commission, Ghana - Championed accessibility across three major releases, achieving 100% WCAG AA compliance - Built and maintained a shared Figma component library (Material-based tokens), reducing handoff time by 75% - Facilitated weekly Design Sprints and cross-functional workshops with PMs, engineers, and stakeholders	LANGUAGES English (Fluent), Twi (Native)
Graphic & Digital Designer 2015 – 2016 Ahead Media, Accra - Produced 50+ digital and print assets for WordPress-driven marketing sites, increasing repeat business by 30% - Partnered with copywriters and developers in Agile sprints, maintaining 95% on-time launch rate	AVAILABILITY Open to freelance & full-time roles worldwide. Remote-first.
EDUCATION	
MSc in Information Technology 2022 – 2023 University of Aberdeen Specialized in Human-Computer Interaction, Data Management, and Emerging Technologies. Capstone: Teach Admin Balancer — academic staffing tool optimizing course scheduling and workload distribution.	
Bachelor of Graphic Design 2012 – 2016 University of Education, Winneba Focused on Visual Communication, Branding, and Digital Media Design. Final capstone: Full branding system for Baaye Lodge including logo and print collateral.
