PROFESSIONAL PROFILE

Digital Product Designer & AI Consultant and founder of TabSphere LTD. I combine UX/UI, visual design and practical AI-assisted product delivery to turn complex ideas into clear user experiences. My work spans SaaS, customer engagement and logistics, from discovery and user journeys to prototypes, requirements and release validation. I lead design and product decisions, collaborating with developers on production implementation. An MSc in Information Technology, CompTIA Security+ and a graphic design background inform my approach to usability, technical constraints and security-aware delivery.

CORE CAPABILITIES

UX/UI and product design • User journeys • Wireframing and prototyping • Visual design and design systems • AI-assisted workflows • Product discovery • Requirements and user stories • Acceptance criteria • Stakeholder collaboration • QA and UAT • Release validation

PROFESSIONAL EXPERIENCE

Founder and Digital Product Designer & AI Consultant | TabSphere LTD

Jun 2025 - Present | Scotland, UK

- Define product problems, user journeys, scope and priorities across SaaS, customer engagement and digital platforms; translate needs into requirements and acceptance criteria.
- Direct UX/UI and AI-assisted delivery workflows, turning business needs into structured briefs for developers and reviewing outputs for usability and product fit.
- Shape onboarding, authentication, admin and permissions workflows, payments, analytics and responsive experiences with technical collaborators.
- Run QA and UAT across roles, critical journeys and edge cases; validate releases and guide improvements in pre-production and live environments.

SELECTED PRODUCT WORK

- SteadyBrief | Interview preparation SaaS | steadybrief.co.uk. Led product definition, CV and vacancy journeys, onboarding, UX direction, entitlements, admin requirements and release validation.
- Tappivo | NFC and QR customer engagement | tappivo.com. Shaped business onboarding, owner and admin workspaces, touchpoint destinations, ordering concepts, analytics and acceptance testing.
- ShipOpz | Freight operations platform | shipopz.com. Contributed product strategy, rebrand and UX direction for booking, customer and operations journeys; developed requirements and tested the user workspace.
- TabSphere digital platform | tabsphere.co.uk. Directed the website rebuild, responsive UX, portfolio, CMS/admin workflows, contact journeys, accessibility, SEO and release testing.

EARLIER DESIGN AND PROFESSIONAL EXPERIENCE

Lead Graphic and UX Designer and Media | Forestry Commission Ghana, Wildlife Division

Sep 2017 - Aug 2022 | Accra, Ghana

- Led visual communication, UX and digital media for public-facing conservation work across 23 protected areas; produced interface concepts, digital and print campaigns and stakeholder materials.
- Coordinated creative contributors and helped grow the media function from approximately eight to around 30 people.

Graphic Designer | Ahead Media Ghana

Jun 2016 - Sep 2017 | Ghana

- Translated client and business briefs into branding, digital campaigns, print design and customer-facing visual communication.

Security Officer | GuardWatch / ABP Bridge of Allan and SecuriGroup

Nov 2024 - Mar 2026 | Scotland, UK

- Worked across access control, site security, incident awareness and reporting, client communication and procedure adherence.

ADDITIONAL PRODUCT AND VENTURE WORK

- CommutAble: accessibility-focused mobility venture in development; proposition, disabled-user journeys, stakeholder needs and journey-scoring concept.
- Ava World: early-learning product in development; parent and child journeys, requirements and testing.
- ODDSO AI: Ghana sports-analysis concept; UX direction, subscription and Mobile Money planning.
- TS-SOC: internal security operations tool; workflow scope, role/access considerations and release testing.
